

Memo

To: HHS Board Quality, Safety Audit and Compliance Committee

From: Dorothy Mahoney, Home Health Program Manager
Josh Gramling, Director Community Care

Date: May 18, 2026

Re: Annual Home Health Quality Assessment and Performance Improvement Plan

The annual MVNA Home Health Quality Assessment and Performance Improvement Plan is submitted to inform Hennepin Healthcare System leadership of the MVNA Home Health quality improvement activities for the reporting year. In accordance with CMS Conditions of Participation for Home Health Agencies, the attached summary must be reviewed and approved by the organization's governing body. The attached Quality Assessment and Performance Improvement Plan fulfill this regulatory requirement.

Quality improvement initiatives were implemented throughout 2025, and – while progress was made – several targets remain in progress. The 2026 Home Health Quality Plan was subsequently reviewed, approved, and supported by the Quality and Safety Management Committee in April 2026.

The plan is now being forwarded to the HHS Board's Quality, Safety, Audit, and Compliance Committee for review and endorsement. Upon committee support, the plan will be advanced to the HHS Board for final approval.
