Introduction

An annual budget is often viewed as a set of numbers showing what resources are available and how an organization is planning to use them. However, the real value of a budget comes from understanding the organization's goals, priorities and planned actions that helped determine the budget amounts. The Park District's 2025 General Fund Operating Budget is centered around its mission and System Plan and provides a road map for 2025 operations and how the Park District will manage the challenges it faces.

Three Rivers Park District was created in 1957 and is responsible for managing approximately 27,000 acres of parkland and hundreds of miles of trails in the suburbs of Minneapolis. The Park District's mission is to "promote environmental stewardship through recreation and education in a natural resource-based park system." This mission requires the Park District to consider how best to manage and preserve natural resources while providing unique recreational and educational opportunities. Inclusion of these two core values in the mission statement is meant to ensure the Park District considers both issues financially and philosophically as decisions are made. The 2025 General Fund Budget provides an outline of how the Park District intends to meet these often-conflicting goals.

Priorities of the 2025 General Fund Operating Budget

The Park District's 2025 General Fund Operating Budget totals \$53,256,649 and provides funding for the goals and priorities identified below through a combination of property taxes, Metropolitan Council grants, park guest fees, and other revenue sources.

Continue to provide high quality facilities, programs, and recreational opportunities.

The 2025 General Fund Operating Budget continues to provide the public with the high-quality facilities, programs, and recreational opportunities for which the Park District is known and respected. The Park District's facilities, including visitor centers, nature centers, play areas, picnic shelters and trails, provide users with unique opportunities to learn about and interact with their surroundings. Educational programs led by highly skilled naturalists and recreation staff provide wonderful opportunities to recreate and/or learn about the natural world. And, through a variety of casual recreation opportunities, including picnicking surrounded by nature, biking, and hiking on more than 162 miles of regional trails, swimming in a lake or a chlorinated swim pond, and cross-country skiing just to name a few, the Park District is dedicated to meeting the desires of its users.

Priority for funding in 2025 was given to those budget initiatives that maintain and support the level of service provided in past years including increased funding for regular staff wages and benefits and funding for increased costs of goods and services.

Continue to manage natural resources, be a leader in natural resource management issues and educate the public on natural resource management issues.

Management of open space and natural resources and the education of natural resources issues continues to grow in importance. Invasive species, both aquatic and land based, continue to impact natural resources and the Park District maintains its leadership role and works closely with state and local partners in managing and controlling these threats. The 2025 General Fund Operating Budget will continue to provide the resources necessary for water quality testing and studies, wildlife study and management, forest and prairie restoration and maintenance of landscaped areas by funding the hiring and retention of highly qualified staff, many of whom are viewed as experts in their fields and providing them with the funding needed to efficiently and effectively do their jobs.

Continue implementation of the System Plan by providing a wide range of services to Park District users both within existing park locations and in resident's local communities.

The Park District's System Plan calls for Park District facilities and programs to be welcoming, provide a variety of activities throughout the recreation spectrum and reach out to underrepresented communities and groups. The Park District continues to invest in programs and partnerships to increase our presence in many communities through visits to community festivals and parks, collaborative educational programming at a variety of sites outside of our parks, programs as part of school curriculums and collaborating with other partners to reach targeted populations. The 2025 budget funds these efforts through staff dedicated to offering these services and reaching out to new groups as they are identified.

Use non-property tax revenue to fund needed budget increases.

After a decade of little to no property tax increases, the Park District finds itself in a period of increasing total property tax levies. The Park District believes the total property tax increase, which includes both the operating and debt service levy, is what should be measured since this is the impact the property owner sees. The Park District is committed to using grants and user fees to maintain a low annual property tax increase while still funding increasing operating costs.

The 2025 budget uses \$454,987 in increases from Metropolitan Council grants and park user revenue to fund approximately twenty percent of the total budget increase.

Prepare the Park District for the Opening of Mississippi Gateway Regional Park

Mississippi Gateway Regional Park, located in Brooklyn Park along the Mississippi River, is the Park District's newest facility. A complete rebuild of the old Coon Rapids Dam Regional Park, this park incorporates the City of Brooklyn Park's environmental area that is adjacent to the Park and upgrades all facilities as well as adding new amenities and better access to the Mississippi River. Construction has been underway since 2023 and should wrap up in 2025, although parts of the park will open as early as spring of 2025.

The 2025 budget includes \$481,377 in new funding for three additional full-time staff, seasonal staff and a variety of supplies and other costs to allow the park to meet the public's needs.

Challenges Facing the Park District in 2025 and Beyond

Increased Park Visitation

Park users continue to enjoy the District's parks and trails in record numbers. Visitation increased to more than 15.3 million in 2023 as the popularity of parks and trails continues to grow. The Park District anticipates annual visitation will continue to increase for the foreseeable future.

The Park District is one of ten park agencies that make up the Metropolitan Regional Park System (the "System"), which is monitored and partially funded by the Metropolitan Council. The Park District historically accounts for more than 20% of the System's total visitation and both the Park District's and System's usage saw a very slight increase (1.3% for the Park District and 0.55% for the System) in 2023.

Increased visitation, combined with the high quality of service the District provides, will continue to impact the costs of operating and maintaining both parks and trails. Increased visitation requires more maintenance costs, increased cleaning costs and ultimately, additional staff to meet park user's needs.

Wages and Benefits

Park staff and the services they provide play an important part in attracting and retaining park users. For that reason, the hiring and retaining of highly qualified, creative, and dedicated staff is an annual priority. Wages and benefits account for 79% of the General Fund Budget. Increases in wages and benefits are influenced by internal factors (such as contracts, insurance premiums etc.) and external factors (labor market, wages offered by others, etc.) making it an annual challenge to stay competitive in the labor market. Changes to compensation and benefits during the past couple of years has helped the Park District recruit and retain staff, but the District needs to continue to review and change budget parameters to remain competitive. The 2025 Budget includes an increase in both union and non-union employee's compensation designed to keep the District competitive within the local economy.

Natural Resources Management

Natural resource management is a principal element of the District's mission. The District needs to be proactive in protecting natural resources from aquatic, forest, and prairie invasive species in order to meet its mission and provide high quality natural resources experiences for park visitors. Meeting this need requires the ability to identify potential invasives, to control their spread, effectively treat the invasive and replace the invasive with native materials. In addition, since management practices within Park District properties and throughout the area can impact natural resources, working with and educating the public and cooperating with other interested groups is absolutely necessary to be successful in managing natural resources. The 2025 budget includes more than \$4.47 million dedicated to the management of natural resources. Future budgets will need to continue to include these efforts and the costs associated with them.

Property Taxes

The Park District's largest revenue stream comes from the property tax levied against all property in suburban Hennepin County. The property tax levy has two components; an operating levy and a debt service levy. The operating levy is used to fund daily operations

and the Board of Commissioners has the responsibility for setting the operating levy each year. The operating levy is limited by state statute to .03224% of taxable market value. The Park District monitors its levy compared to this limit annually, but has always been well below the limit. The levy limit for 2025 is \$58.5 million while the actual operating levy is \$43.2 million. The second component, the debt service levy, must be used to pay the principal and interest on debt issued for park acquisition and improvements. This amount can be decreased if adequate funds are on hand to help pay principal and interest costs.

Property Tax Levy History		
Year	Levy Amount (in millions)	Percent Change
2015	41.21	2.30%
2016	41.47	0.63%
2017	41.46	--
2018	41.44	--
2019	41.43	--
2020	42.63	2.90%
2021	43.74	2.60%
2022	45.47	3.96%
2023	47.66	4.82%
2024	49.32	3.48%
2025	51.28	3.97%

The combined impact of the two components of the tax levy are what the taxpayer sees and hence, the overall tax levy is the amount the Park District has worked to control. As the table to the left shows, the Park District has avoided large annual tax increases over the past decade. During the same period, the District has continued to provide core services while adding trails and new services. Decreases to the debt service levy in 2016 through 2020 resulted in minimal overall increases as the Park District was able to balance the decreases in the debt service levy to changes in the operating levy. Over the last five years the Park District has used a combination of increases in property taxes and other revenues to hold down the annual property tax increase. In fact, between 2015 and 2025, the annual tax levy increase has averaged \$1,007,000 or 2.44%. The 2025 property tax levy increase is 3.97% and results in a \$2.61 per year increase in the taxes for a homeowner in

suburban Hennepin County with a home valued at \$419,000 (the median residential value for suburban Hennepin County).

In an effort to plan for the future, the Park District has used a model which projects potential property tax increases five years into the future. The model, which allows for operational growth and anticipated future debt service costs, projects property tax increases for the next 5 years to be between 3% and 5% each year. This model provides a starting point for future budgets and the actual tax levy increase will be determined annually based on priorities and the District's ability to use other strategies to balance the budget including reallocating resources to higher priority activities and increasing user fees.

Park District System Plan

The Park District System Plan identifies the Park District's vision and goals for the future and will guide decision making and budget priorities. The vision of the 2040 System Plan is to make nature easily accessible for all people to experience and appreciate on a regular basis, foster connections to nature through high quality education programs and recreational offerings and inspire curiosity, promote stewardship, and improve the quality of life while preserving natural resources for future generations.

Achieving this vision will require the Park District to continue looking at how and where recreational services are provided and will need to include searching for partners to help provide services. The design of Mississippi Gateway Regional Park, which is expected to open in 2025, was inspired by the goals of the system plan and will be the future home of the Park District's outdoor education outreach program which strives to partner with cities, school districts and other organizations to provide recreational and educational services. The System plan anticipates continuing to grow partner relations in order to meet user's and taxpayer's

recreational and educational needs and desires while facing increasing costs driven by market conditions and continued increase in the number of park visits and requested services.

Funding for the 2025 General Fund Operating Budget

Funding for the 2025 General Fund Operating Budget is provided by property taxes, user fees, intergovernmental revenues, and other miscellaneous revenues. The following table summarizes the sources of funding over the last 4 years:

Source of Revenue	2022 Actual	2023 Actual	2024 Budget	2025 Budget	2025 Budget Over/(Under) 2024 Budget	
					Dollars	%
Property Taxes	\$38,036,512	\$39,587,310	\$40,540,536	\$42,500,536	\$1,960,000	4.83%
Park Use	7,529,268	7,742,633	7,370,622	7,812,609	441,987	6.00%
Grants-Met Council	1,168,043	2,769,332	2,271,470	2,291,470	20,000	0.88%
Grants-Other	317,742	371,700	120,000	120,000	---	---
Interfund Transfers	65,420	56,503	76,732	76,732	---	---
Interest Income	-677,044	696,835	200,000	200,000	---	---
Other Revenue	292,719	425,394	262,302	255,302	-7,000	(2.74%)
Total Revenue	\$46,732,660	\$51,649,707	\$50,841,662	\$53,256,649	\$2,414,987	4.34%

The increase in property tax revenue is due to the 3.97% property tax levy increase discussed above. The percentage shown is different than the 3.97% increase since the information in the above table only includes the operating portion of the levy, which accounts for 84.1% of the total levy.

The budget for park use revenue is increasing due to changes in the revenue estimates for a variety of park locations and revenue sources and fee increases in some passes, camping and some winter recreation fees. Part of the revenue estimate increases relate to amenities at Mississippi Gateway Regional Park. Revenue from these amenities has been estimated conservatively since the exact availability of these amenities is dependent on construction progress.

A more detailed listing of revenues in the 2025 budget can be found on the Revenue Summary by Source table included on page 7.

Expenses included in the 2025 General Fund Operating Budget

Expenses contained in the 2025 General Fund Operating Budget are related to the costs for wages and benefits, supplies, services, and other charges required to conduct the Park District’s day to day operations. Major changes from 2024 include the following:

- Increased wage costs due to 2025 salary adjustments including a 2% general wage increase, changes required by union contracts, and the continuation of performance and step-based pay systems (\$1,676,851).
- Increased health, life and dental insurance premiums that are shared between the Park District and its employees (\$392,534).
- Increased contribution from the General Fund to manage the costs of operating and maintaining the District's fleet of vehicles and equipment (\$29,911).
- Increased utility and contractual costs whose increases are based on rising prices and are beyond the District's control (\$223,545)
- Increases in a variety of operating costs including interpretive services, chemicals for snowmaking and swim pond water quality and a public safety social worker intervention aide (\$30,098).
- Increased operational costs relating to the opening of Mississippi Gateway Regional Park including three full-time positions, seasonal staffing (11,257 hours) and a variety of supplies and services to serve the public. (\$481,377)
- Reallocation of four vacant full-time positions and salary savings from two other vacancies to offset a portion of the increases in other areas. (reduction of \$426,971)
- Increase the contingency in the budget to provide funds for unforeseen issues that may arise during 2025 (\$7,642).

- 12 -

For each example, it is assumed that the market value of the property from 2024 to 2025 will increase by 1.8% which is the increase in valuation for the Park District as a whole.

The Market Value Exclusion is a method used by the state to subsidize residential property taxes by decreasing their taxable value. It is a graduated system providing greater relief for lower valued properties. It is calculated as 40% of a homes value if the home is valued under \$95,000. For properties over \$95,000, the exclusion is \$38,000 minus 9% of the value over \$95,000.

2025 GENERAL FUND OPERATING BUDGET FULL TIME EQUIVALENT POSITIONS

PARK AND TRAIL MAINTENANCE		
Positions	Full-Time Equivalents	
	2024	2025
